To Whom It May Concern:

McGee Home Builders, Inc. built a home for us in 2003. Construction began on our home in July and was completed on time in December.

We had a wonderful experience working with Matt and Tom McGee. The McGee's were most cooperative and eager to please us in every aspect of building. Any of the minor details that needed attending to after we moved in were handled both promptly and efficiently. They build a high quality house and offer many good ideas to help make your house a home.

We are enjoying our home very much. I would highly recommend McGee Home Builders, Inc. to build your home. They are a very professional company with a nice personal touch. We would most definitely use them to build our next home.

Sincerely yours,

Donna B. Hinson
